Reflections on Public Space

Project by Foundation Year 2004 – 2005

Group A of the Gerrit Rietveld Academie Amsterdam; curator VU Hendrikje Bosma.

The project is a collaboration between two schools on the Zuidas. In September 2004 students of the Vrije Universiteit started with college, just like the students of the basic year of the Gerrit Rietveld Academy. The beginning of a new training brings uncertainty, expectations and vulnerable moments with them. In a way those moments are similar to entering unknown public places.
